Abrasive Items

We specialize in producing top-grade Abrasive Items at competitive prices across India, ensuring high performance and reliability. Our range of abrasive items includes grinding wheels, cutting wheels, and other tools designed for cutting, grinding, and finishing applications.

Abrasive Items Features:

- **High Precision:** Provides accurate and clean cuts or finishes.
- **Durable:** Long-lasting performance even under intensive use.
- **Variety:** Available in multiple grades and sizes for different tasks.
- **Safety:** Engineered for safe use, reducing the risk of accidents.

Product Details:

Finish	Coated
Cost	Generally high cost
Color	Multicolor
Maintenance	Replacement as they wear down
Chemical Resistance	Resistant to oils and solvents

Ball Bearing

A ball bearing is a crucial component in machinery, employing balls to maintain separation between bearing races. It serves to minimize rotational friction while supporting both radial and axial loads. This is achieved by utilizing at least two races to contain the balls and transmit the loads through them. Ball bearings play a vital role in reducing rotational friction and supporting radial and axial loads, finding widespread use in diverse mechanical applications. It is available at all effective cost with excellent quality measures.

Ball Bearing Features:

- **Smooth Operation:** Provides efficient and quiet motion.
- **Durable:** Resistant to wear and long-lasting.
- **Versatile:** Suitable for a wide range of applications.
- **High Load Capacity:** Can support significant radial and axial loads.

Ball bearings are used in a wide variety of applications, including:

- Electric motors and generators
- Bicycles and skateboards
- Cars and trucks
- Farm machinery
- Construction Equipment
- Appliances

Product Details:

Price Range	Relatively low cost
Maintenance	Periodic inspection for wear and tear
Made From	Steel, ceramic
Compatibility	Standard shaft sizes
Lubrication	Grease lubricated

Brake Linear

Brake linears are critical components for vehicle braking systems, ensuring reliable and efficient braking performance. Furthermore, brake linears are the main friction material component within brake pads or shoes. They are essential for safe and reliable vehicle operation by creating friction against the brake disc or rotor during braking. This friction converts kinetic energy (motion) into thermal energy (heat), ultimately slowing and stopping the vehicle. Get for industrial and commercial purposes at wholesale price.

Brake Linear Features:

- **High Friction:** Provides excellent stopping power.
- **Durable:** Resistant to wear and high temperatures.
- **Reliable Performance:** Ensures safe and consistent braking.
- **Easy Installation:** Designed for quick replacement.

Product Details:

Exporter By	ARC ENTERPRISE
Control Type	Manual
Function	Control friction to slow down a vehicle
Country of Origin	India
Application	Stopping power for automobiles, motorcycles

Carbide Tap and Set Dies

Dedicated to quality we have Carbide taps and set dies, an essential tool for cutting and shaping threads in metalworking and manufacturing applications. Also, we make the quality accessible in terms of customer orientation. Apart from that, we have efficient quality measures, with reasonable cost.

Carbide Tap and Set Dies Featured With:

- **High Precision:** Ensures accurate thread cutting.
- **Durable:** Made from high-quality carbide for long life.
- **Versatile:** Suitable for various materials and applications.
- **Efficient:** Provides smooth and clean thread cutting.

Product Details:

Finishing	Non polished
Application	Industrial
Packaging	Individual plastic case or set box
Shank Type	Straight
Cost	Higher cost compared to all taps

Contactor Switch Gear

Contactor switchgear is used to control electrical circuits in industrial and commercial applications, ensuring safe and efficient operations. Our contactor switchgear is often used in industrial settings, commercial buildings, and large infrastructure projects. Also, we provide complete information about the switch-gear from technical parameters to installation assistance. Moreover, when it comes to price we provide everything within the budget of the customers

Switch Gear Features:

- **Reliable:** Provides consistent performance.
- **Durable:** Built to withstand harsh conditions.
- **Safety Features:** Includes protective mechanisms to prevent electrical faults.
- **Easy Installation:** Designed for quick and easy setup.

Product Details:

Standards	Electrical safety standards like UL or IEC
Exporter By	ARC ENTERPRISE
Phase	Single, Three Phase
Mounting Type	DIN rail mount
Type	Switch Gear

Conveyor Belt

We are a leading supplier of high-quality Conveyor Belts offering competitive prices across India. Our products are crafted to meet export standards. Our conveyor belts and accessories are designed for durability and efficiency in various industrial applications. They are ideal for transporting materials smoothly and reliably across different distances and environments.

Conveyor Belt Features:

- **High Durability:** Made from robust materials to withstand heavy usage.
- **Versatile Applications:** Suitable for a wide range of industries including mining, manufacturing, and logistics.
- **Easy Maintenance:** Designed for minimal maintenance and easy replacement of parts.
- **Customizable:** Available in various sizes and configurations to meet specific needs.

Product Details:

Corrosion Resistance	Yes
Maintenance	Regular inspection for wear and tear, cleaning
Supply By	ARC ENTERPRISE
Application	Manufacturing, warehousing, packaging, mining, agriculture use
Country of Origin	India

Double Row Cylindrical Bearing

Get most precise and quality of “Cylindrical Bearing” at best cost. The Double row cylindrical bearings are designed for high load capacity and rigidity, making them ideal for use in heavy machinery and industrial applications. We makes effective and realistic products that make every this accessible to the customers.

Cylindrical Bearing Features:

- **High Load Capacity:** Supports heavy radial loads.
- **Durable:** Long-lasting with high resistance to wear.
- **Efficient Operation:** Reduces friction for smooth performance.
- **Versatile:** Suitable for a variety of industrial applications.

Product Details:

Country of Origin	India
Seal Type	Open, sealed
Used For	Gearboxes, electric motors, transmissions
Material	Carbon steel
Shape	Round

Electric Pump and Motor

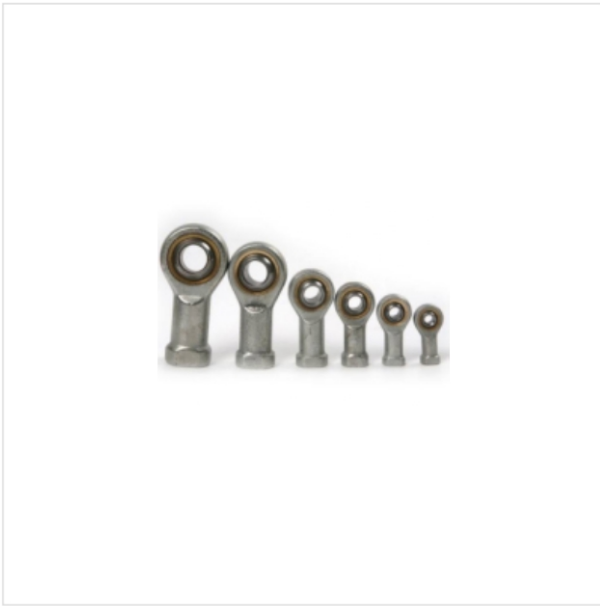

Hopefully you are safe place where we provide a variety of pumps and motors. Our electric pumps and motors are designed for high efficiency and reliability in various industrial and commercial applications, ensuring consistent performance. It is well-packaging material with which we make it everything available.

Pump and Motor Features:

- **High Efficiency:** Designed to provide maximum output with minimal energy consumption.
- **Durable:** Built to last with robust materials and construction.
- **Reliable Performance:** Ensures consistent and dependable operation.
- **Versatility:** Suitable for a wide range of applications, from water pumping to industrial machinery.

Product Details:

Color	Blue
Motor Type	Induction or brushless
Power Source	Electric
Finish Type	Painted
Movement	Rotational movement of the motor shaft

Eye Rod Bearing

Buy the best Eye rod bearings, which are specialized bearings used in mechanical linkages to provide smooth pivoting and motion control. Making this we prefer quality and quantity analysis in depth. Our expertise team brings the most valuable and qualitative range of products for all customers.

Eye Rod Bearing Features:

- **High Strength:** Can handle substantial loads and stresses.
- **Smooth Pivoting:** Ensures efficient and accurate motion control.
- **Durable:** Long-lasting even in demanding conditions.
- **Versatile Applications:** Suitable for a wide range of mechanical systems.

Product Details:

Application	Automotive engines, Industrial machinery
Design	Contemporary
Installation	Press fit
Surface Finish	Polished
Function	Supports pivoting or oscillating motion

GE Series Bearing

We are among the top-notch manufacturers and suppliers of GE Series bearings which are spherical plain bearings designed for heavy-duty applications, providing smooth rotational and oscillatory motion. Our company makes it available in best quality measure for all required measures.

GE Series Bearing Features:

- **High Load Capacity:** Suitable for high load applications.
- **Durability:** Resistant to wear and tear, ensuring longevity.
- **Smooth Operation:** Reduces friction for efficient motion.
- **Versatile:** Used in various industrial and mechanical applications.

Product Details:

Mounting Options	Rod ends, spherical plain
Series	GE Series
Shock Load Capacity	High
Misalignment Angle	Up to 3 degrees
Finish Type	Galvanized

GMN Seal

Customers can contact us for obtaining superior grade GMN Seal at the most competitive prices. We ensure that the delivery schedule should be properly maintained in order to meet the exact requirements of the customers. We are assisted by a team of professional quality experts who check our products at different stages such as production, packaging and delivery. We are based in Mumbai, Maharashtra, India and we have carved a niche for ourselves in the market by offering quality products.

Grinding Wheel and Cutting Wheels

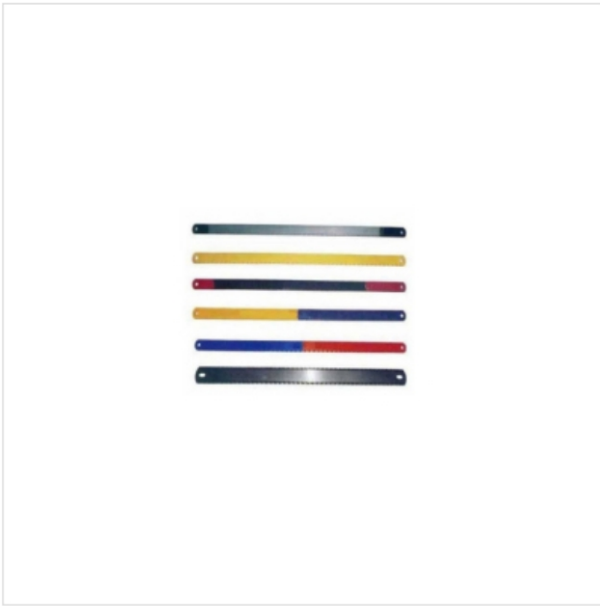

Grinding and cutting wheels are crucial tools in metalworking, utilized for grinding, cutting, and finishing various materials. Cut-off wheels are particularly effective in metal fabrication and manufacturing, as they help eliminate excess material from workpieces. These wheels vary in structure and function, and are employed for specific purposes, such as grinding and cutting, to achieve precise cuts at 90-degree angles.

Cutting Wheel Features:

- **High Precision:** Provides accurate and clean cuts or finishes.
- **Durable:** Long-lasting performance under intensive use.
- **Variety:** Available in multiple grades and sizes for different tasks.
- **Safety:** Engineered for safe use, reducing the risk of accidents.

Product Details:

Features	Easy to install, Versatile design, Sturdiness, Flexibility, Cost effective
Maintenance	Dress wheel to maintain shape, Replace when worn down
Wheel Type	Straight, cup, flat
Bond Type	Vitrified, Rubber
Application	Metalworking, Stonework, Woodworking

Hacksaw Blades

We are identified as one of the commendable names in the market offering Hacksaw Blades at affordable prices. With the assistance of our reliable transportation facilities, we have become capable of delivering the orders on time. Before making the final dispatch of the orders, the entire range is strictly checked against varied quality parameters. We are based in Mumbai, Maharashtra, India and known for providing amazing deals and lucrative offers to the clients.

Hand Tools

We are a prominent manufacturer of Hand Tools at bulk cost in India, designed for durability and precision. Our range of hand tools includes wrenches, pliers, screwdrivers, and more, designed for efficiency and durability in various applications. It is standardized with all quality parameters to

Hand Tools Features:

- **Ergonomic Design:** Comfortable to use for extended periods.
- **High Durability:** Made from robust materials to withstand heavy use.
- **Precision:** Provides accurate performance for various tasks.
- **Wide Range:** Suitable for different applications and industries.

Product Details:

Usage	Gripping, cutting, shaping etc
Color	Multicolor
Pattern	Plain
Type Of Tool	All Type
Cost	Wide range depending on tool type, quality

Heavy Crusher Bearing

As a premier manufacturer of Heavy Crusher Bearings, we ensure superior quality and durability at bulk rates throughout India. Heavy crusher bearings are essential components for crushing machines, designed to handle extreme pressure and reduce wear and tear on the machinery.

Heavy Crusher Bearing Features:

- **High Load Capacity:** Can handle heavy loads and high impact conditions.
- **Long Lifespan:** Made from high-grade materials to ensure longevity.
- **Smooth Operation:** Reduces friction for efficient machine performance.
- **Heat Resistant:** Capable of operating in high-temperature environments.

Product Details:

Mounting	Direct fit into crusher housing
Exporter By	ARC ENTERPRISE
Load Capacity	Static and dynamic load
Material	Stainless steel
Country of Origin	India

High Precision Level

Backed by a hardworking team, we are capable of offering the High Precision Level as per the exact requirements of the buyers. This is due to our modern logistic facilities that we are able to meet the delivery deadlines with ease. We give utmost importance to the quality of the products and thus we produce the entire range in accordance to the quality standards. Based in Mumbai, Maharashtra, India.

High Tensile Bolt Nut Washers

We share a forefront with the famed organizations, supplying superior quality High Tensile Bolt Nut Washers at affordable rates. Customers highly prefer us because of our practice of delivering the orders in an organized condition and on time. The entire range, we offer, is manufactured under the strict guidance of the quality experts ensuring zero defect's at buyer's end. We are situated in Mumbai, Maharashtra, India.

HSS Tap Set and Die

This is due to our rich industry experience and knowledge; we are able to offer optimum quality HSS Tap Set and Die. Our up-to-date logistic facilities support us in meeting the delivery deadlines promised to the customers. Our team of quality experts strictly checks the entire range against varied parameters to make sure that they adhere to global quality standards. The organization has laid its foundation stone in Mumbai, Maharashtra, India.

Hydraulic Fitting

We provide high-quality Hydraulic Fittings at competitive prices across India, ensuring secure and leak-proof connections. Hydraulic fittings are used to connect hoses, pipes, and tubes in hydraulic systems, ensuring a leak-proof and secure connection. Get in reasonable cost for all types of industrial and commercial applications.

Hydraulic Fitting Features:

- **High Pressure Resistant:** Designed to withstand high pressure.
- **Durable:** Made from robust materials for long life.
- **Leak-Proof:** Ensures secure and reliable connections.
- **Versatile:** Compatible with various hydraulic systems and applications.

Product Details:

Corrosion Resistant	Yes
Shape	Different shapes
Supply By	ARC ENTERPRISE
Selection Criteria	Pressure rating, fluid compatibility, connection type
Color	Silver

Libreanath and Oil Seals

Our company is a renowned exporter and supplier of Libreanath and Oil Seals worldwide, with products tailored to client-specific requirements. Our lip seals and oil seals are designed to prevent leakage of lubricants and contaminants in machinery, ensuring smooth and efficient operation. The Libreanath oil seals at competitive prices throughout India, are crafted to ensure optimal performance.

Oil Seals Features:

- **Effective Sealing:** Prevents leaks and contamination.
- **Durable Materials:** Made to withstand high pressure and temperatures.
- **Versatility:** Suitable for a wide range of applications.
- **Ease of Installation:** Simple to fit and replace.

Product Details:

Cost	Competitive pricing
Rust Resistance	Yes
Design	Spherical inner liner with an outer shell
Temperature Range	-40°C to +120°C for seals
Mounting	Suitable for both stationary and rotating shafts

Lifting Equipments

Recognized amongst the famed names in the market, we are capable of delivering quality Lifting Equipments to the customers. This is due to our cordial associations with the logistic companies that we are able to reach any preferred location with ease, thus meeting the delivery schedule. We have hired proficient quality analysts having rich domain experience who make sure that only defect-free range will be delivered to buyers. Hailing from Mumbai, Maharashtra, India.

Linear Bearing

Owing to our expertise in the domain, we are able to supply excellent quality Linear Bearing at very reasonable price. Buyers can place bulk as well as urgent orders with us and we make sure to deliver the same on time. The quality analysis system, we have, is headed by a pool of professional quality experts having rich domain experience. Our organization is a famed one that is located in Mumbai, Maharashtra, India.

Match Pair Bearing

As a reputable manufacturer and exporter of Match Pair Bearings, we recognize the importance of reliable shaft support in industrial applications. Our top-quality Plummer blocks are meticulously designed to provide exceptional performance and reliability across a wide range of industries. Match pair bearings are meticulously aligned and paired to guarantee precision and high performance in machinery.

Match Pair Bearing Features:

- **High Precision:** Ensures accurate alignment and performance.
- **Durable:** Made from high-quality materials for long life.
- **Smooth Operation:** Reduces friction for efficient motion.
- **Reliable:** Provides consistent performance in demanding conditions.

Product Details:

Design	Plain
Finish Type	Glossy
Load Capacity	High axial and radial load capacity
Type	Bearing
Noise Level	Low noise

Measuring Instruments

We are one of the respected names engaged in the process of supplying quality Measuring Instruments at nominal rates. We have carved a dignified position in the market owing to our on-time and safe delivery of the orders. We are committed towards providing quality-assured products to the customers and thus we check them stringently before making the final dispatch. We are able to cater to the wide requirements of the buyers based in Mumbai, Maharashtra, India.

MS and SS Steel Pipes

We are a top manufacturer of MS and SS Steel Pipes at bulk cost in India, ensuring high strength and corrosion resistance. Mild Steel (MS) and Stainless Steel (SS) pipes are used in various industrial applications for fluid and gas transportation. Buy the best quality of material get with efficient quality standards measure at the best price.

Features:

- **High Strength:** Provides reliable support and durability.
- **Corrosion Resistant:** Especially SS pipes, which are resistant to rust.
- **Versatile:** Suitable for a wide range of applications.
- **Precision:** Ensures accurate dimensions and reliable connections.

Product Details:

Surface Finish	Polished, satin
Shape	Round
Pressure Rating	High
Welding Method	Easily weldable
Availability	Widely available in various sizes

Multimeter and Electrical Instruments

One stop destination for the best in class and exceptional assortment of Multimeter and Electrical Instruments; we are a reliable Supplier amidst the customers. We are capable of make on-time deliveries of the product range that we keep safe in our massive warehouse. Maintaining the set industrial standards, we make sure that the range is as per the requirements. Obtain the extensive array of products from our well-established inventory located in Mumbai, Maharashtra, India.
